Summary

A third-year B.Tech Software Engineering student with a focus on web development using the MERN stack.

Skilled in building interactive and scalable applications, with a strong foundation in problem-solving and logical thinking.

Known for being a collaborative team player and proactive leader, eager to learn from real-world projects and contribute fresh ideas through an internship opportunity.

Technical Skills

- **Languages:** JavaScript
- **Frontend:** React.js, HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** MongoDB
- **Tools:** Git, GitHub, Postman, Nginx, PM2, Linux, Cloudinary, Razorpay, Google Maps API, VPS
- **Core:** DSA, OOPs, DBMS, OS, API Integration

Experience

Appzeto Pvt. Ltd. - Software Developer Intern

April 2026 – June 2026

- Developed & maintained scalable MERN stack applications for multiple live client projects.
- Built REST APIs and integrated Google Maps, Razorpay, Cloudinary, Email/OTP, and other third-party services.
- Resolved production issues, optimized code, improved application performance, and enhanced user experience.
- Designed & implemented features including admin dashboards, subscriptions, order management, and delivery workflows.
- Managed deployments using Git, VPS, Linux, Nginx, and PM2, ensuring reliable production releases.
- Collaborated with clients and cross-functional teams to gather requirements, deliver custom solutions, and maintain live applications.

Projects

OYECHOTUU - Multi-Service Food Delivery Platform (MERN Stack)

- Developed a scalable food delivery platform with Food, Grocery, Dairy, and Home Bakery modules.
- Built features including subscription plans, order management, delivery workflow, admin dashboard, and payment integration.
- Integrated Google Maps, Cloudinary, Razorpay, OTP authentication, and optimized application performance.
- Achieved 1,500+ Play Store downloads, 2,000+ live users, 800+ successfully delivered orders, and ₹280K+ in gross revenue.

APANSABJIWALA – Grocery Delivery Platform (MERN Stack)

- Developed a quick-commerce grocery platform connecting customers with multiple sellers for fast and convenient grocery delivery.
- Built end-to-end features including product and inventory management, seller management, order processing, delivery workflow, admin dashboard, and online payments.
- Integrated Razorpay, live order tracking, location-based services, OTP authentication, notifications, and other third-party services.

Education

Bachelor of Technology (IT)

IPS Academy, Institute of Engineering & Science (RGPV)

CGPA: 9.1 / 10

2023-Present

Senior Secondary (XII)

St. Stephen's Convent School, Chhanera (M.P.)

Percentage: 89.6%

2023

Secondary (X)

St. Stephen's Convent School, Chhanera (M.P.)

Percentage: 92.4%

2021

Certifications

- IIT Bombay - Java Training (score 75%)
- Web Development Internship – Ypsilon IT Solutions Pvt. Ltd.
- AWS Solutions Architecture Job Simulation – Forage
- SnowHacks'26 Hackathon - Chameli Devi Group of Institute, Indore
- AI Manthan'25 National level Hackathon - Acropolis Institute of Technology & Research, Indore
- SSH'26 National level Hackathon - Symbiosis University of Applied Science, Indore

Achievements/Participations

- Participated in **Smart India Hackathon (SIH 2025)** – Internal Round, IPS Academy.
- Participated in **Hacktoberfest 2025** organized by HotWax Commerce, gained experience with open-source contributions.
- Participated in **Science Exhibition 2024** at IPS Academy.
- Always taken up leadership roles as **Team Leader** in college projects and activities.
